

Task: Time Intelligence with DAX

Part 1: Current Date & Basic Date Functions

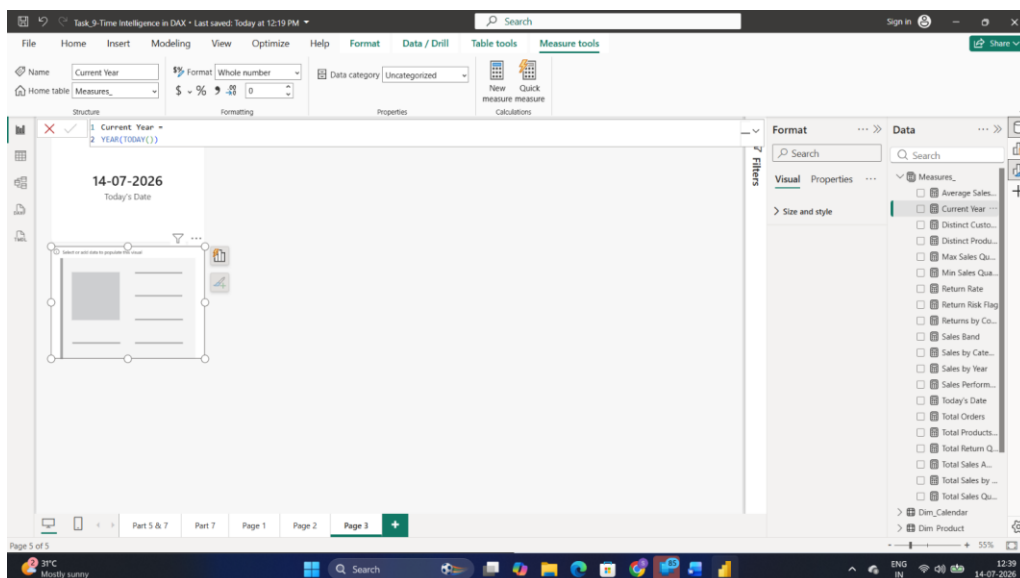

Tasks

Create the following DAX measures:

- Today's Date

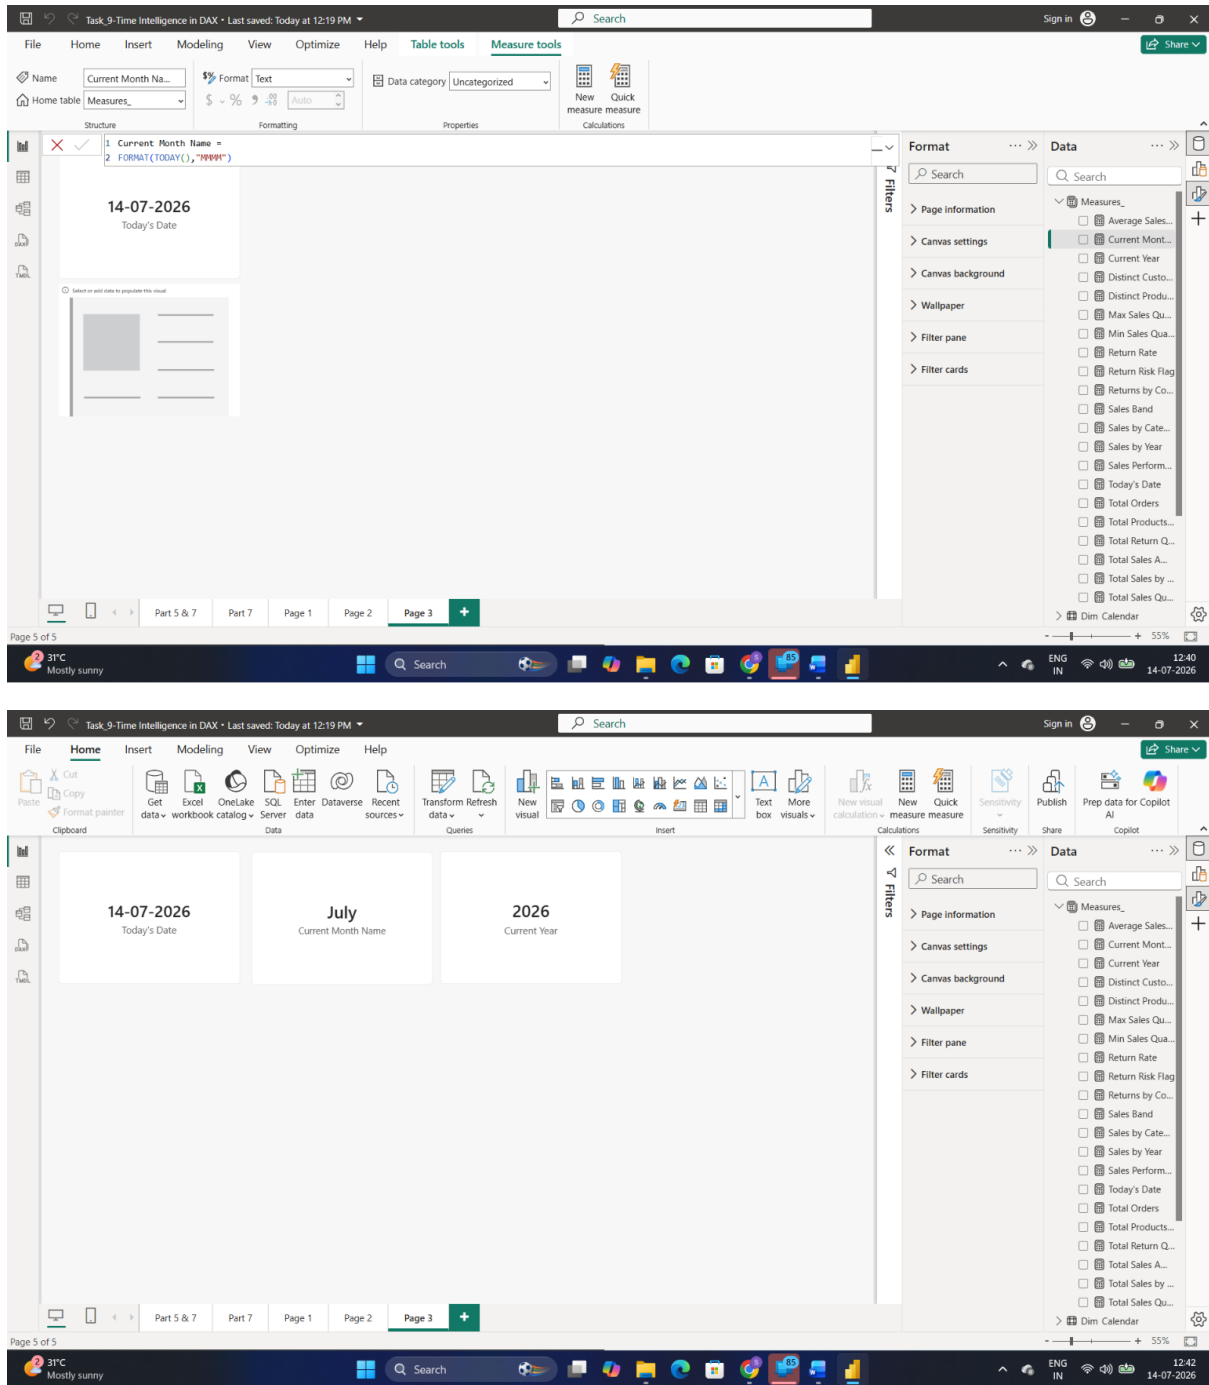

- Current Year

- Current Month Name

Task: Time Intelligence with DAX

Part 2: Sales by Date Components

Tasks

Create DAX measures to calculate:

- Sales Quantity by Year

Task: Time Intelligence with DAX

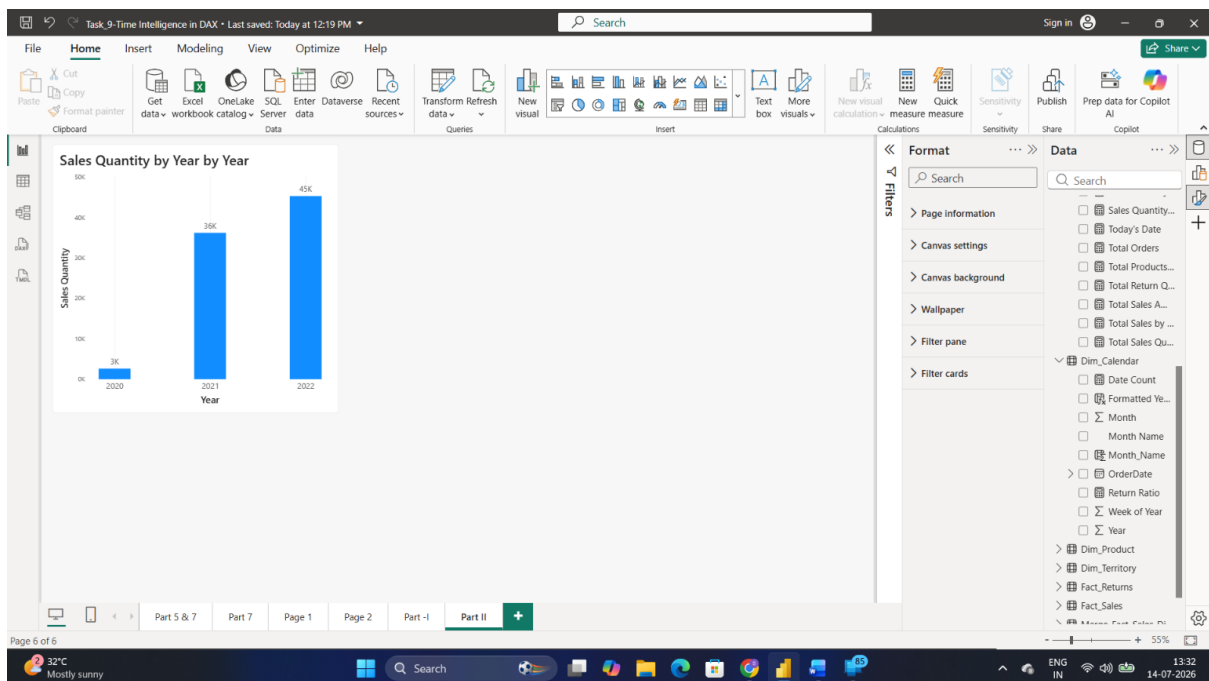

The screenshot shows the Power BI Desktop interface. The DAX formula bar at the top displays the following formulas:

```
1 Sales Quantity by Year =  
2 SUM(Fact_Sales[OrderQuantity])
```

The report area shows three cards:

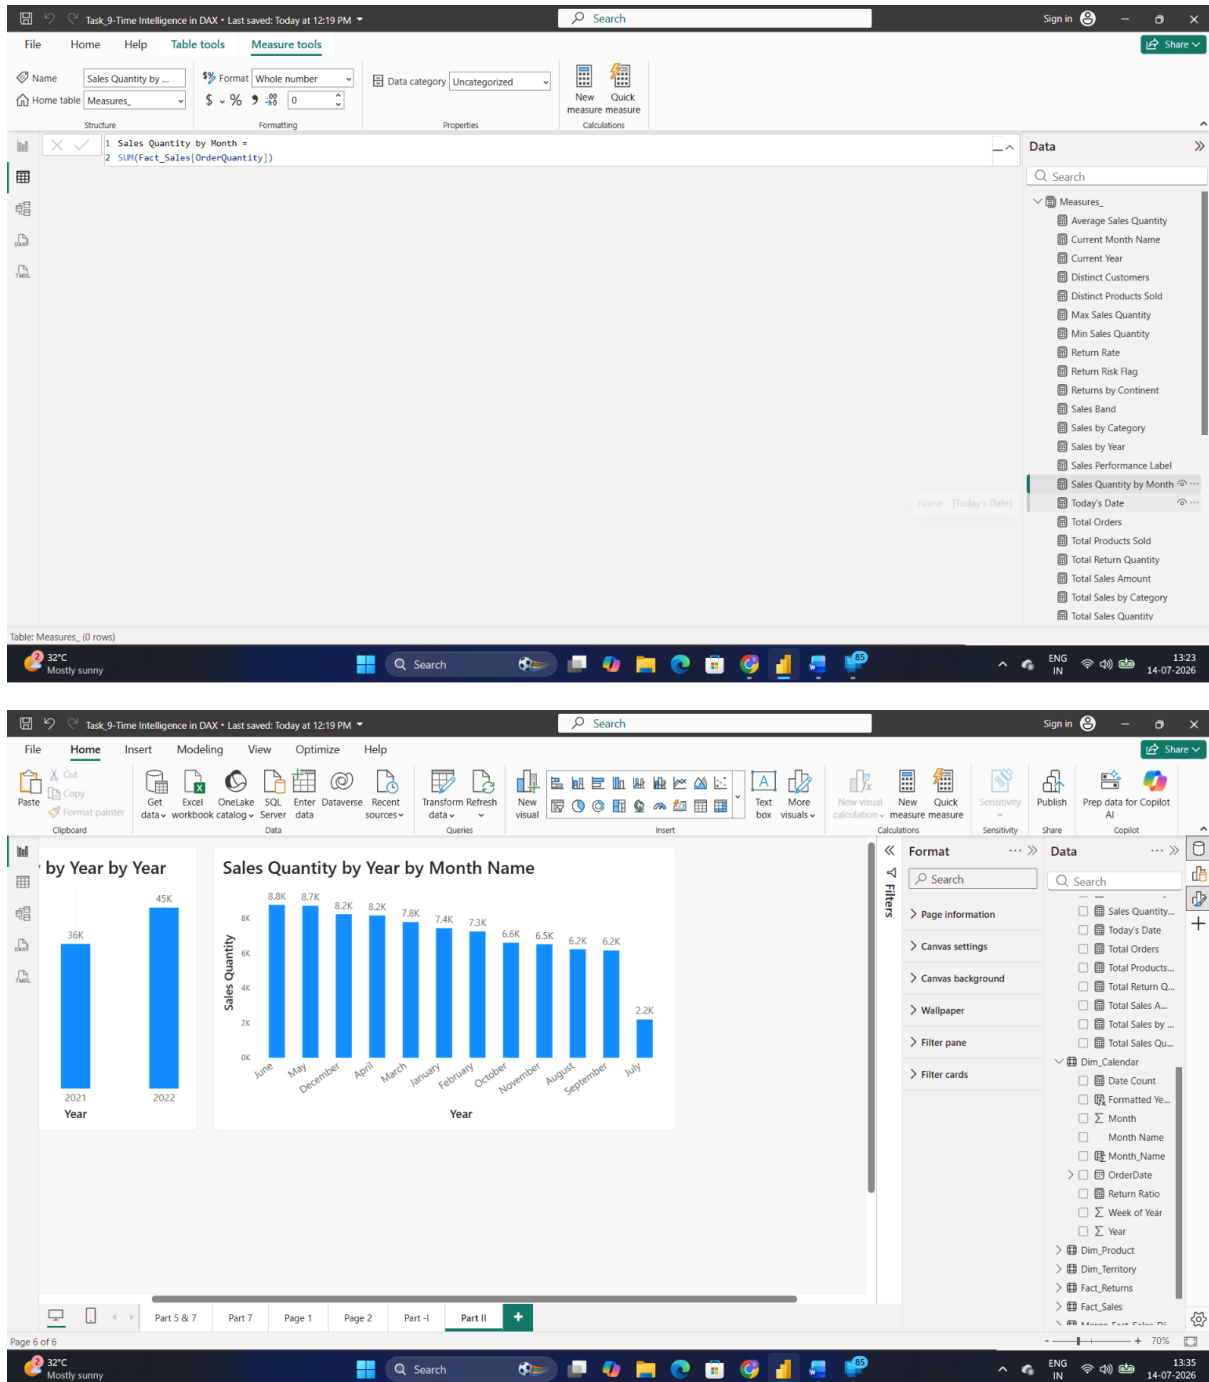

- 14-07-2026**
Today's Date
- July**
Current Month Name
- 2026**
Current Year

The right-hand pane shows the 'Format' and 'Data' tabs. The 'Data' tab is active, showing a list of measures including 'Sales Quantity by Year'.

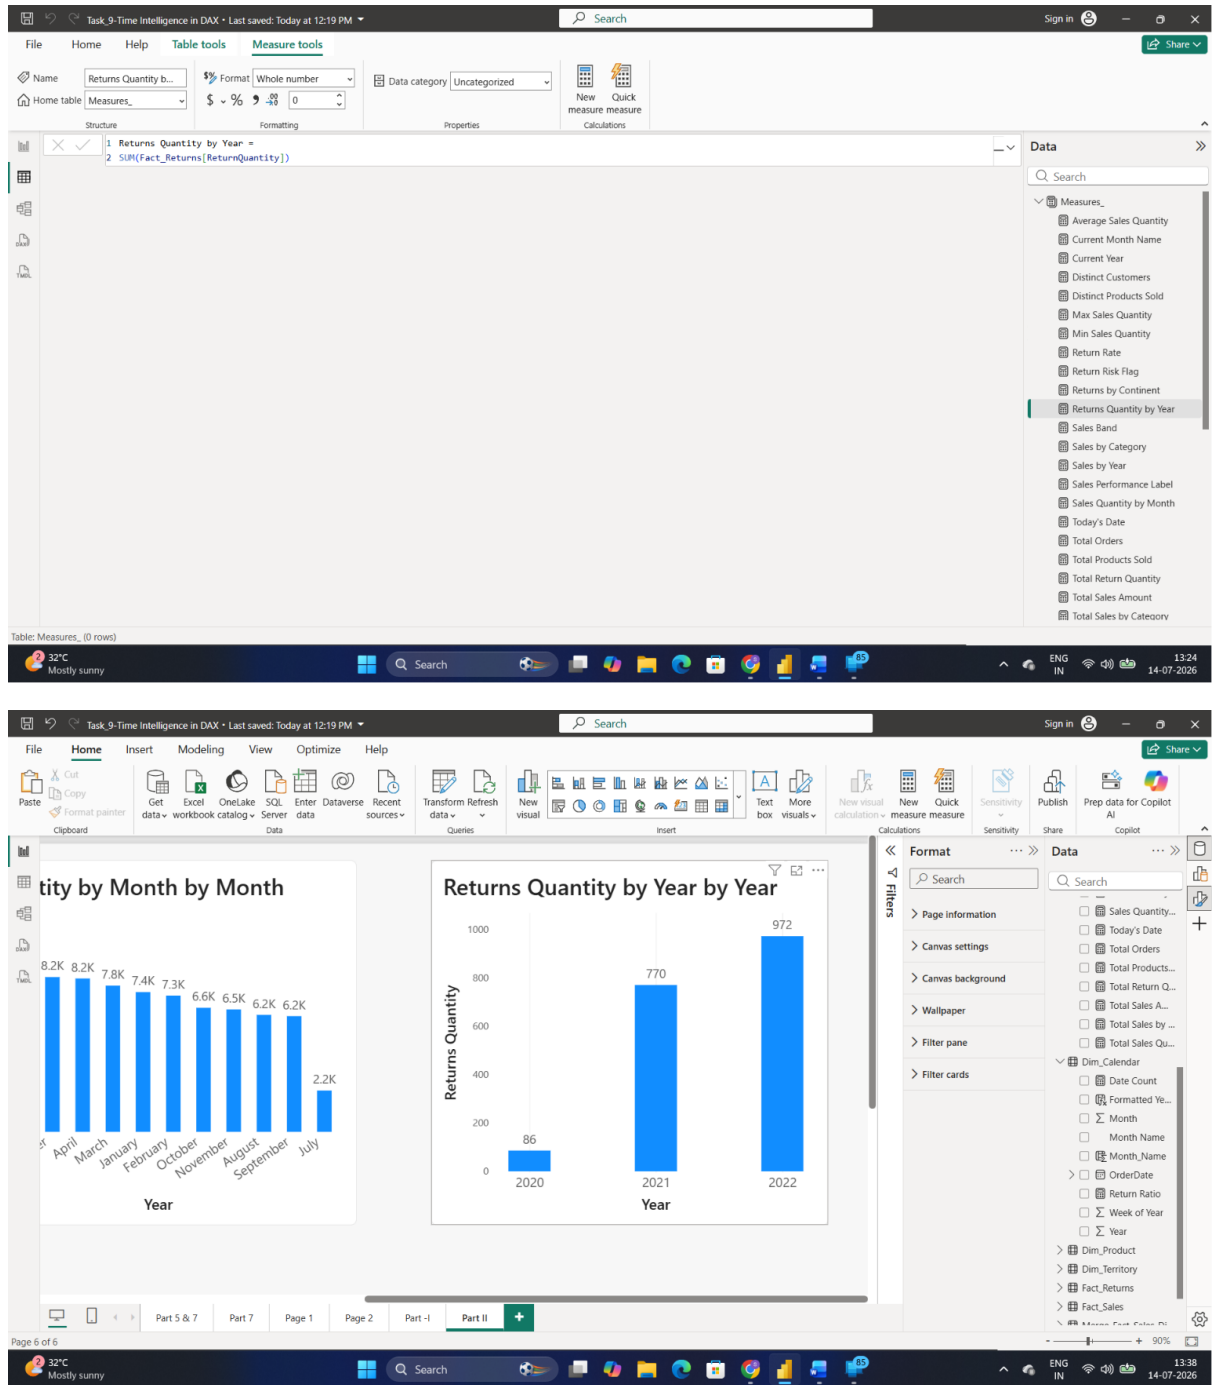

- Sales Quantity by Month

Task: Time Intelligence with DAX

- Returns Quantity by Year

Task: Time Intelligence with DAX

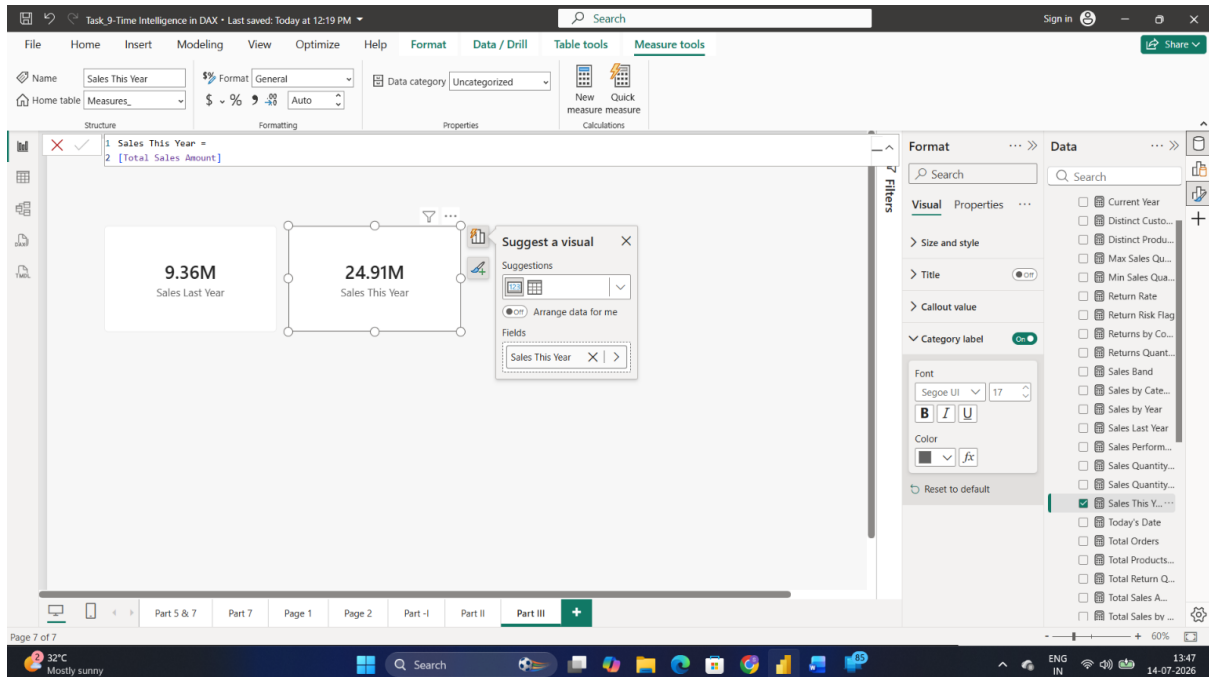

Part 3: Period Comparison Metrics

Tasks

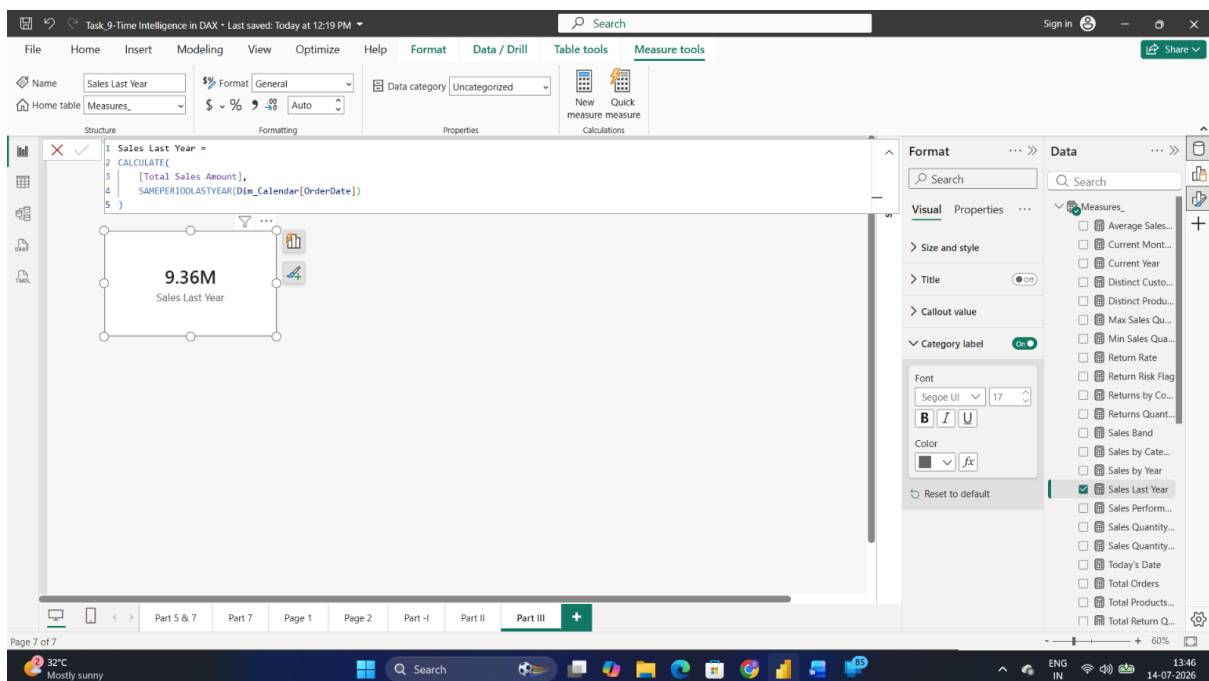

Create the following measures:

- Sales This Year

Task: Time Intelligence with DAX

- Sales Last Year

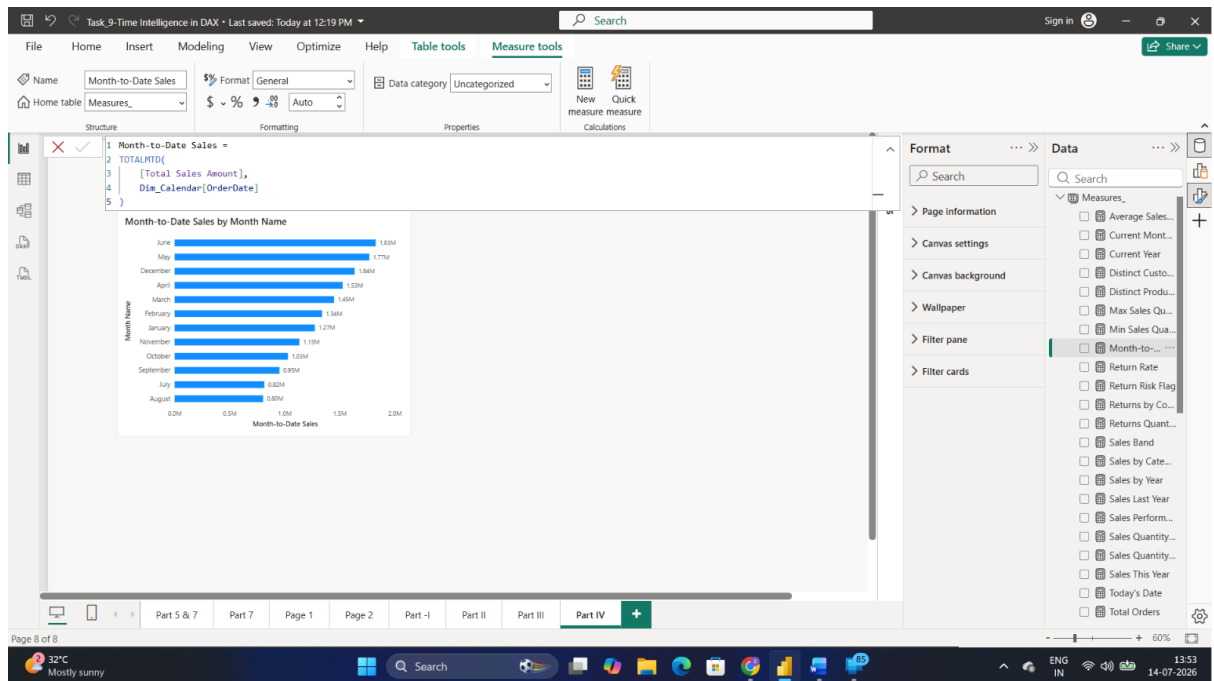

Part 4: Month-Level Time Analysis

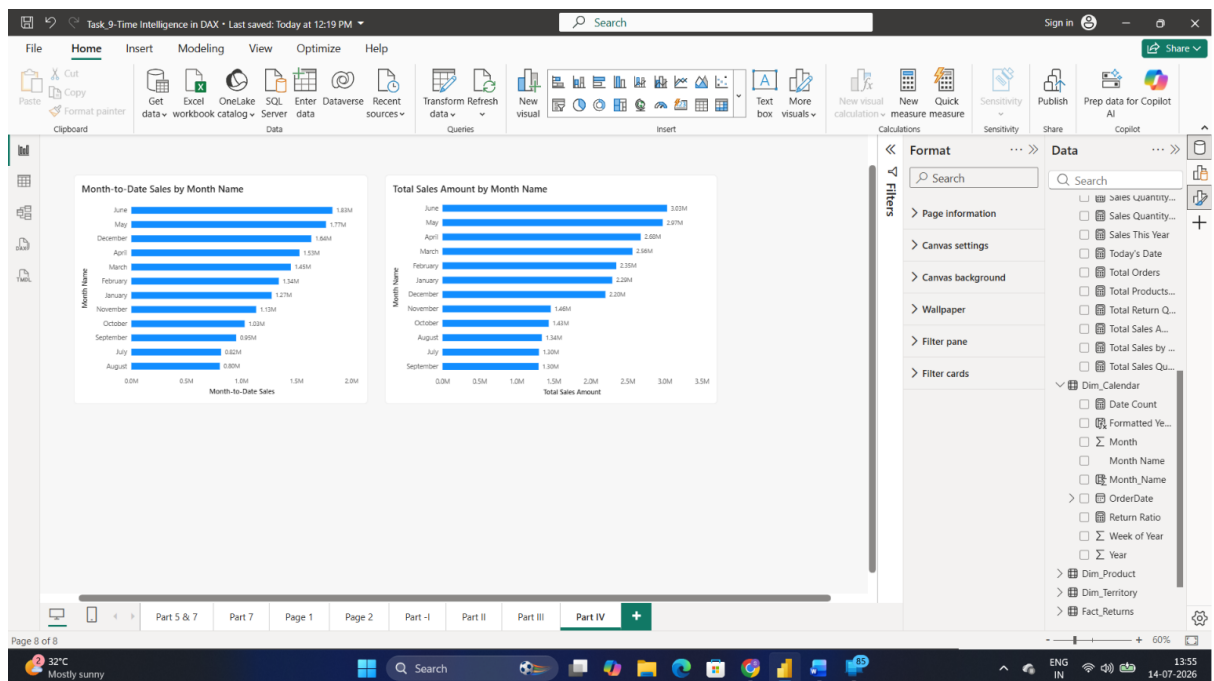

Tasks

1. Create measure for **Month-to-date Sales**.

Task: Time Intelligence with DAX

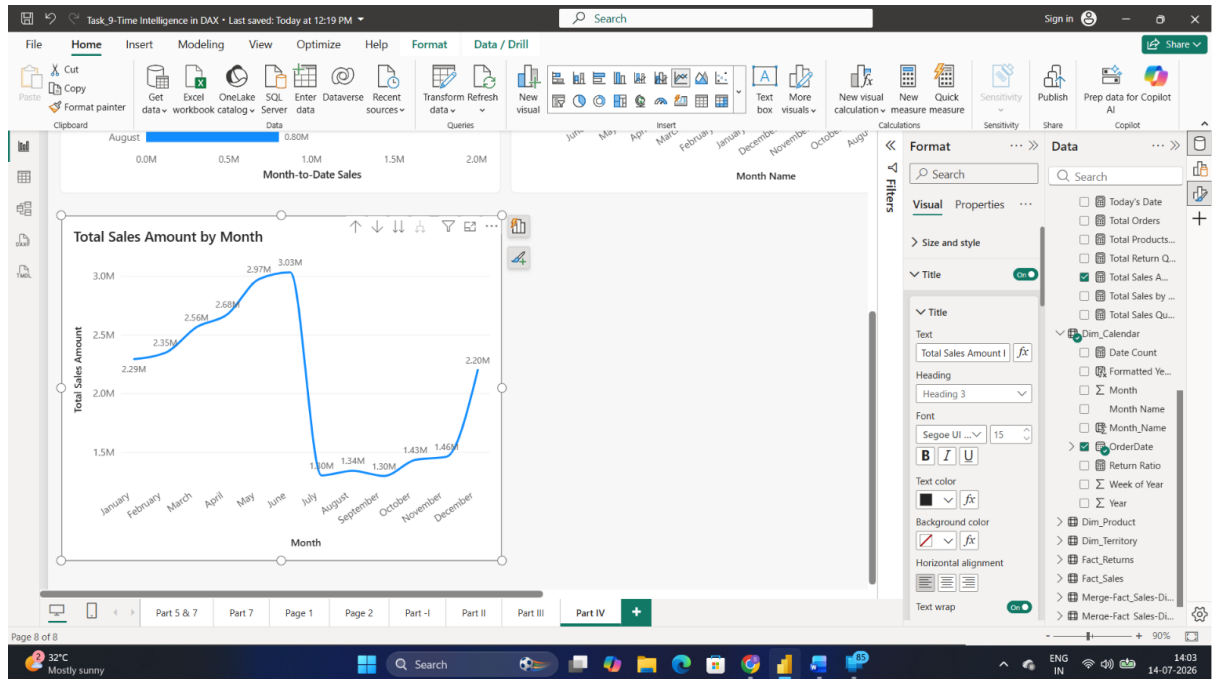

2. Identify **highest sales month** using visuals.

Based on the Month-wise Sales analysis, **June** is the highest sales month with a total sales amount of **3.03M**. Therefore, June is the best-performing month in terms of sales.

3. Use Calendar Hierarchy and Month Name.

Task: Time Intelligence with DAX

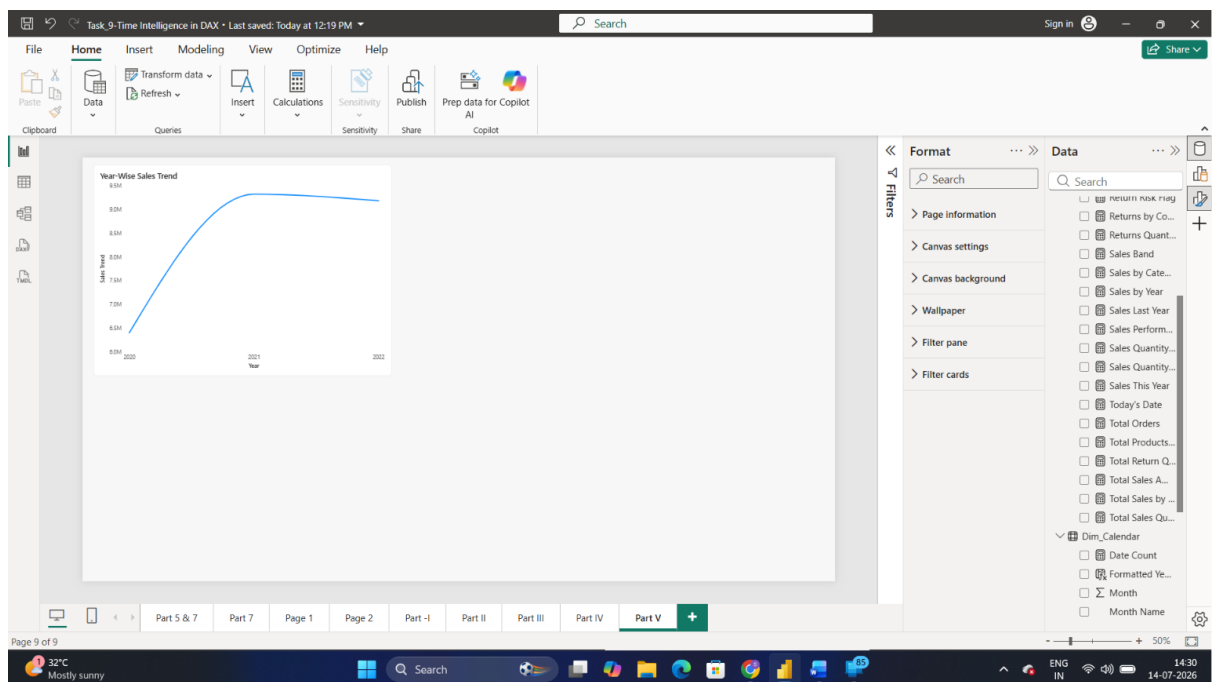

Part 5: Time-Based Business Validation (Using Visuals)

Tasks

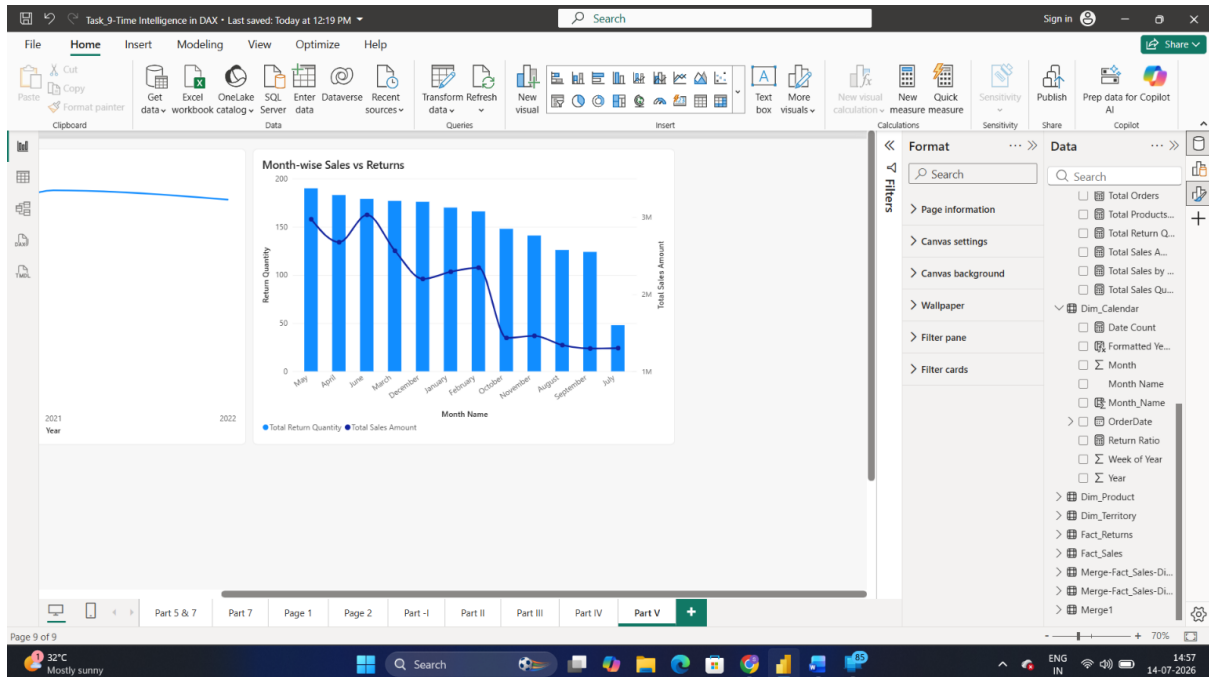

Create visuals to answer:

- Year-wise Sales Trend

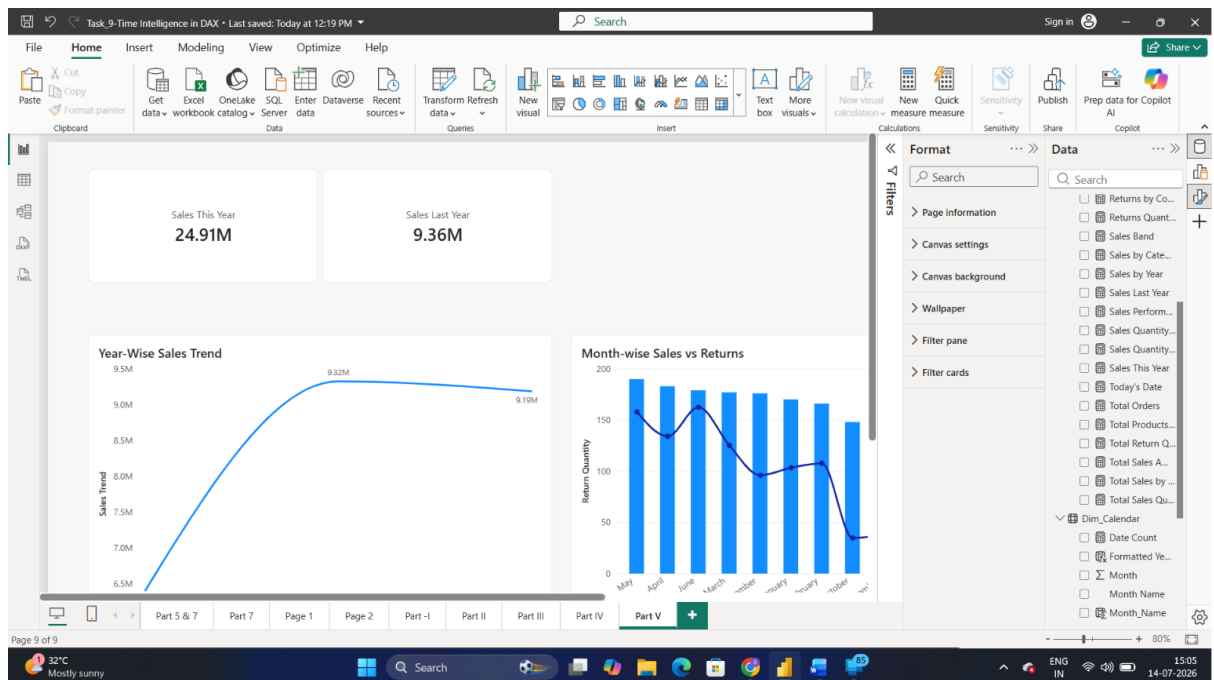

Task: Time Intelligence with DAX

- Month-wise Sales vs Returns

- Current Year vs Last Year Sales

Analytical Questions

Q1. Identify the best performing year.

The **best-performing year is 2021**, as it recorded the highest total sales amount of approximately **9.32M**, which is higher than both 2020 (6.40M) and 2022 (9.19M).

Task: Time Intelligence with DAX

Q2. Are returns increasing or decreasing over time?

The **returns are decreasing over time**. From the **Month-wise Sales vs Returns** chart, the return quantity generally declines from around **190 returns** in the higher-return months to around **50 returns** in the lowest-return month. Although there are minor fluctuations between some months, the overall trend shows a decline in return quantity.
