

TASK : Time Intelligence Patterns in DAX

Part 1: Time Intelligence Setup

Tasks

1. Ensure Dim_Calendar:
 - Contains continuous dates
 - Is marked as a Date Table

2. Validate relationships with:

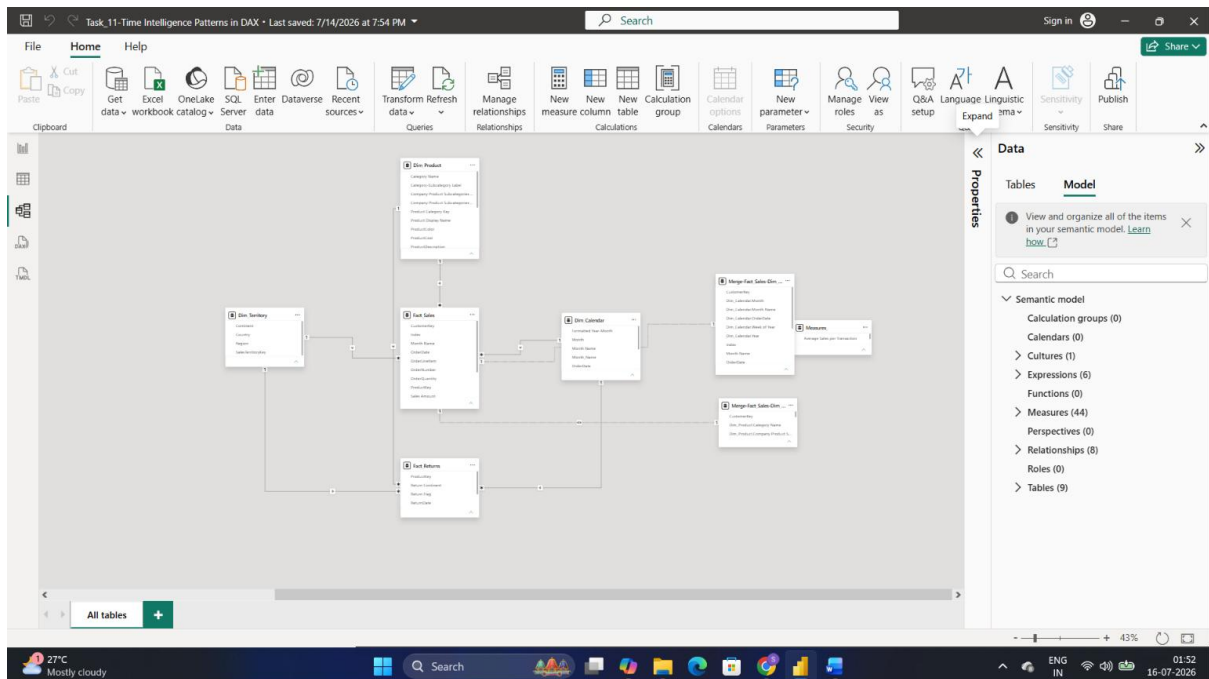

- Fact_Sales (OrderDate)
- Fact>Returns (ReturnDate)

The relationships between the Date Dimension and Fact Tables were verified in Model View.

- **Dim_Calendar[OrderDate] → Fact_Sales[OrderDate]**
 - Relationship Type: One-to-Many (1:*)
 - Status: Active
- **Dim_Calendar[OrderDate] → Fact>Returns[ReturnDate]**

TASK : Time Intelligence Patterns in DAX

- Relationship Type: One-to-Many (1:*)
- Status: Active

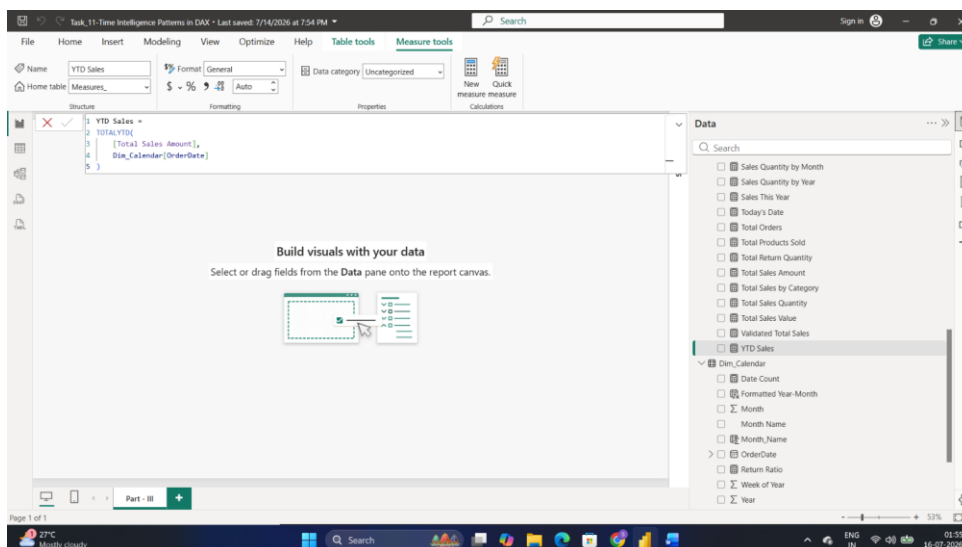

Part 2: Core Time Intelligence Patterns

Tasks

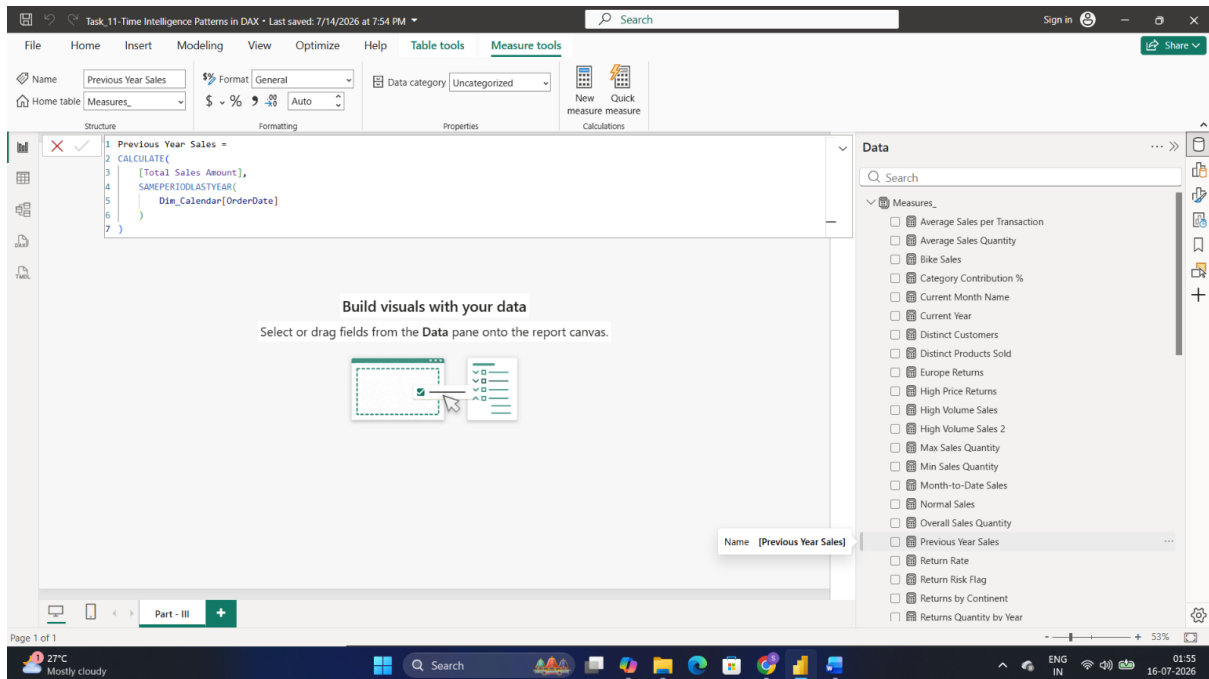

Create the following measures:

- Year-to-Date (YTD) Sales

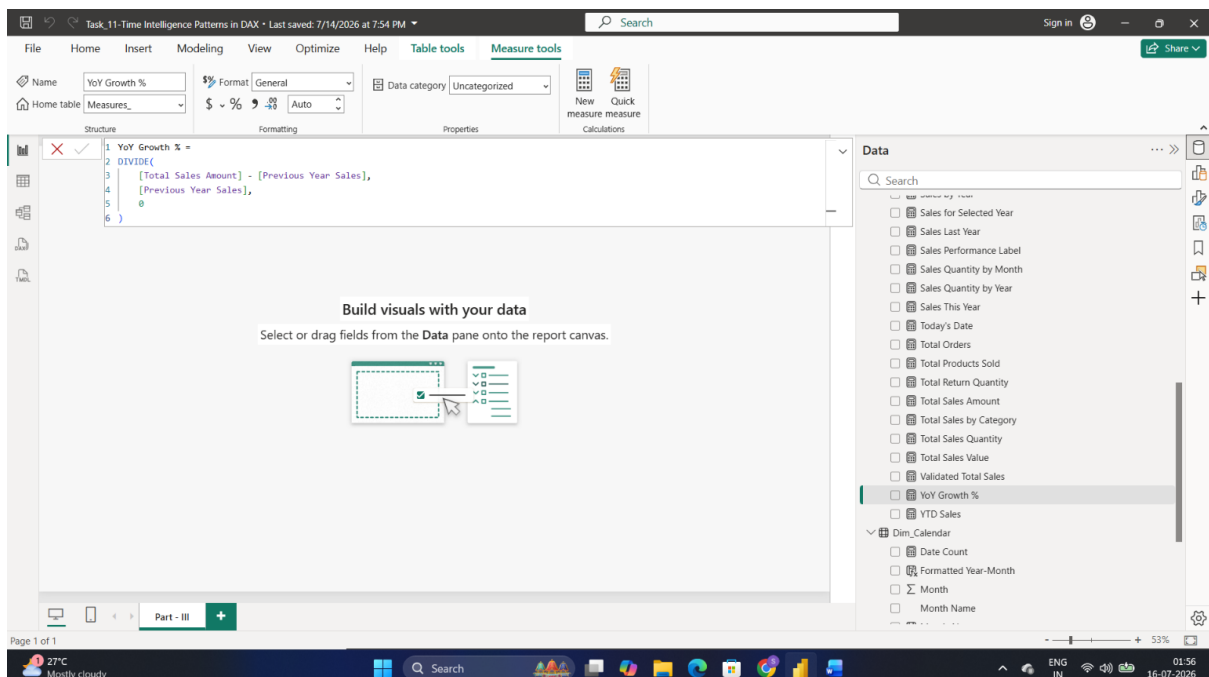

TASK : Time Intelligence Patterns in DAX

- Previous Year Sales

- Year-on-Year (YoY) Growth %

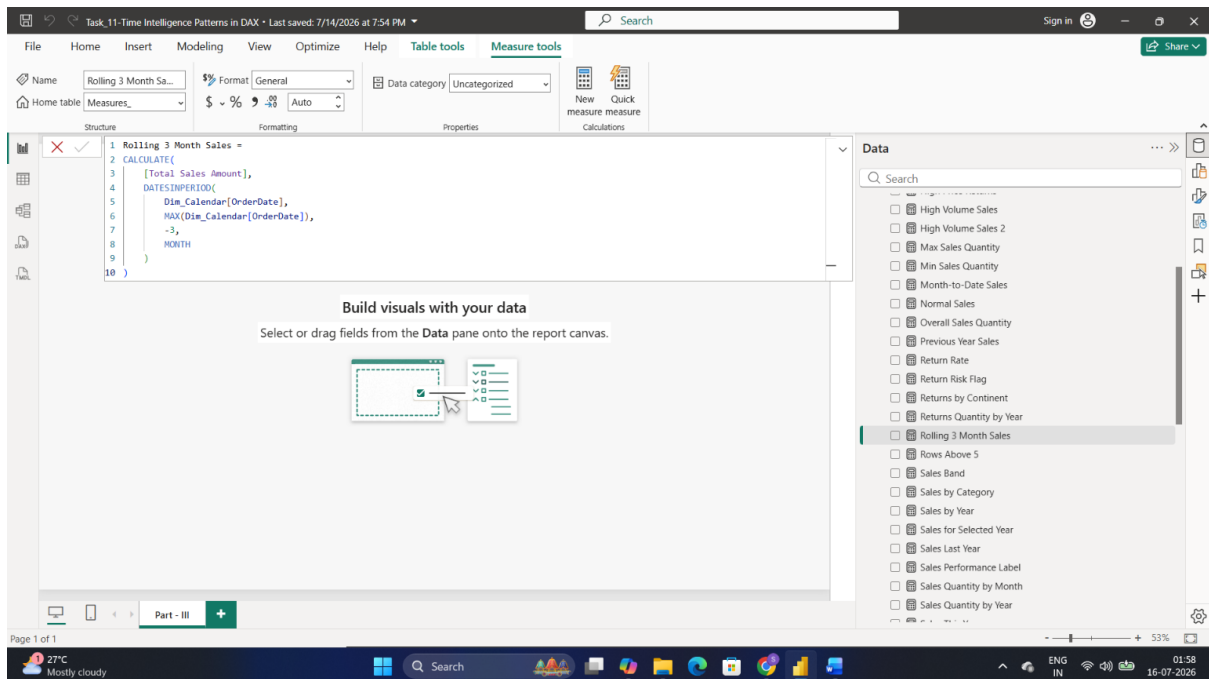

Part 3: Moving & Comparative Analysis

Tasks

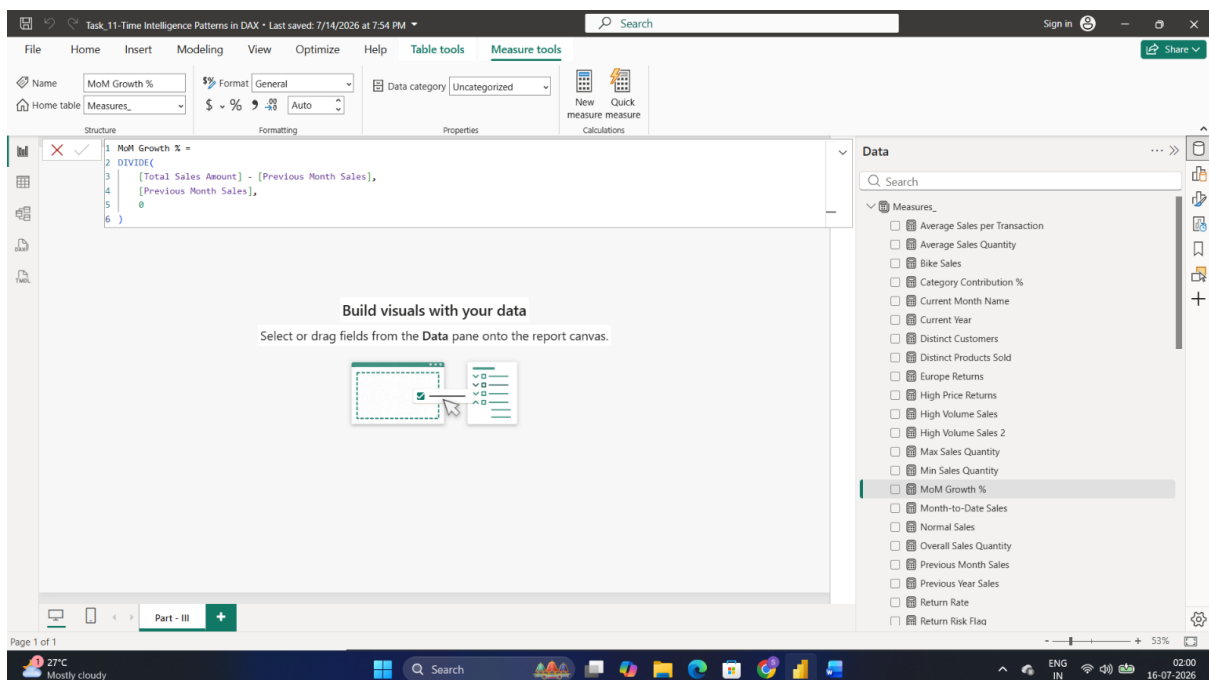

TASK : Time Intelligence Patterns in DAX

Create the following measures:

- Rolling 3-Month Sales

- Month-over-Month Growth

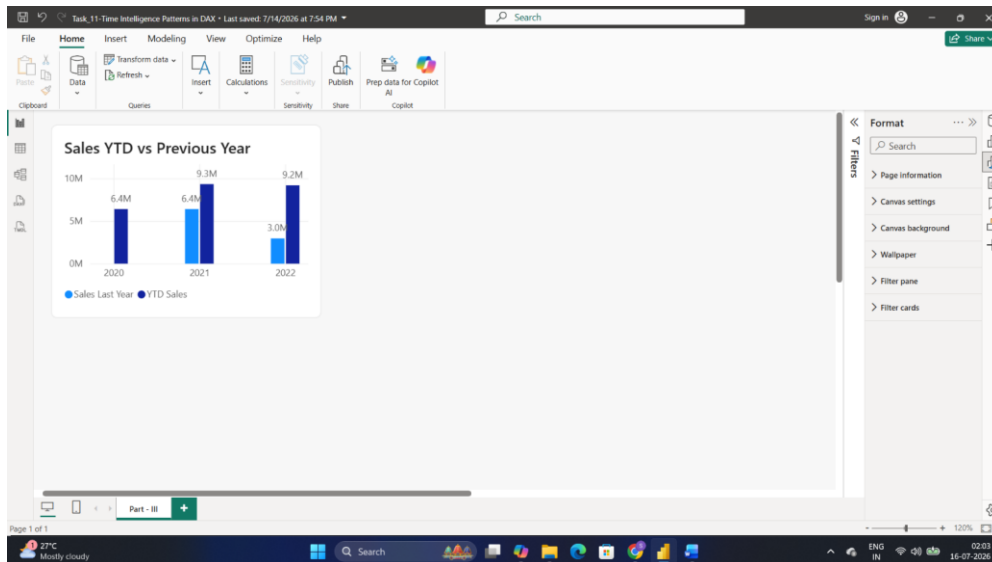

Part 4: Business Analysis Using Time Patterns

TASK : Time Intelligence Patterns in DAX

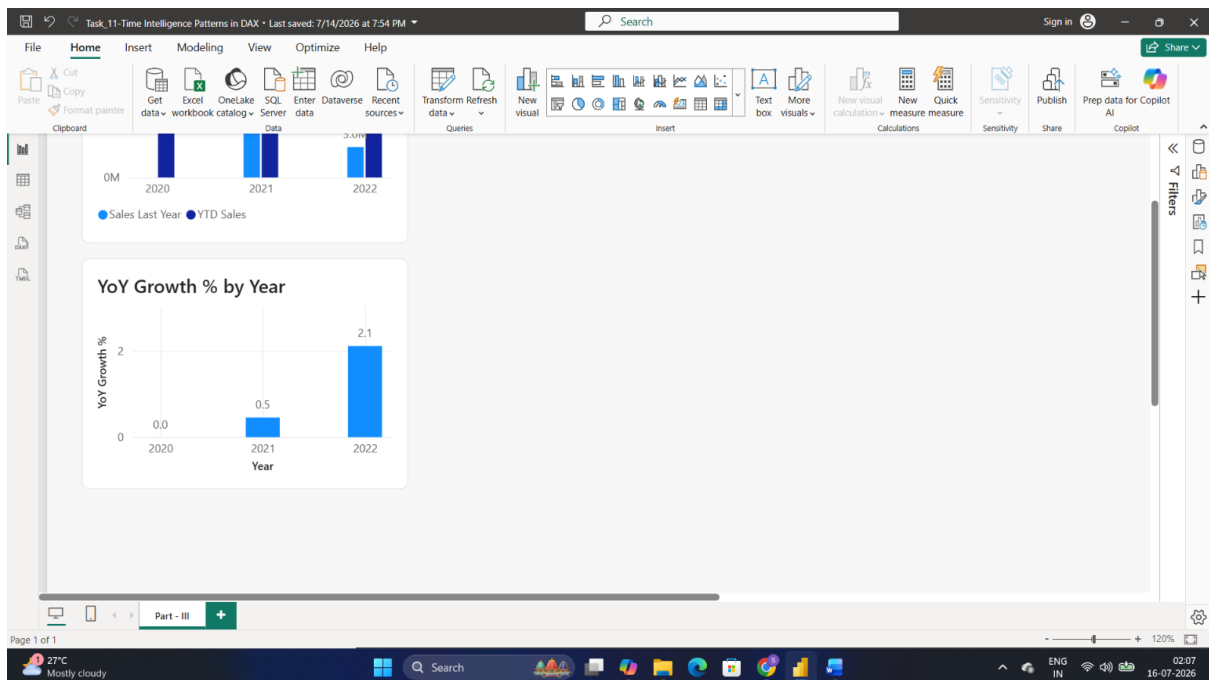

Tasks

Create visuals to analyze:

- Sales YTD vs Previous Year

- YoY Growth % by Year

- Rolling 3-Month Sales Trend
